Family game day's featuring local inventor, David Jisa

BELOIT, Wis.—August is National Inventors Month, a month long event celebrating invention and creativity. In light of this, David Jisa, inventor of Patch Products popular family game, *Roll-It Tic-Tac-Toe*[™], will be hosting a family game day at two local libraries.

Families have the opportunity to meet David Jisa and listen to a brief presentation on how he came up with the idea for *Roll-It Tic-Tac-Toe*, and then they can play the game. The two game days will run an hour in length and are scheduled for August 1 at Kilbourn Public Library starting at 10 a.m. and August 4 at the Reedsburg Public library starting at 6:30 p.m.

Roll-It Tic-Tac-Toe puts a twist on the classic game of Tic-Tac-Toe by adding dice. Players roll dice and mark a corresponding number on nine Tic-Tac-Toe grids. When players get three numbers in a row—either vertically, diagonally or horizontally—they score. The family game comes in two versions—one with colored chips and game boards and another with colored markers on game sheets. It can be played with 2 to 6 people.

Jisa, a Wisconsin Dells resident and teacher, uses games in his classroom to help motivate students. *Roll-It Tic-Tac-Toe* lets students practice their addition skills and develop problem-solving strategies.

Families are encouraged to come support National Inventors month and enjoy a fun and educational hour with the local inventor.
