Set Up: If you have more than 2 players, form two teams. It doesn't matter if teams are not of even numbers. Punch out and assemble the puzzle-piece Game Path. It doesn't matter which pieces get attached to each other, but the pieces must form a complete circle. Snap the Spinner

components and place them nearby. Each player or team take a Rug. The Rugs have spots that show what you need to collect. Each player or team take a Puppy. Name your Puppies just for fun. Place one Puppy on any space on the Game Path. Place the other one directly across the circle from the first Puppy.

Play: Take turns. Spin the Spinner. Count the paw prints on the Spinner and move your Puppy around the Path the number indicated. Follow the direction of the arrows and paw prints on the Path. You must always move in this direction. If you land on the same space with the other Puppy, squeeze your cheeks together with both hands, making your mouth really small, and say, "Fuzzy Puppy!" When you stop laughing, you may take one of the items you need to collect and place it on your Rug.

Winning: If you're first to collect everything you need for your Fuzzy Puppy, put him in his bed! **You win!**
