About Buzzword Bits

The *Buzzword Bits* letter combo is found at the top corner of each card. These letters give hints to the answer in each clue.

Answers can be either 2 words or compound words. For example, here are the clues and answers for the letter combination TF:

① 800 number Toll-free

(Continued on page 2)

- ② Questions, not multiple choice... True-False
- ③ Font Typeface
- ④ Idaho town.....Twin Falls
- ⑤ Main road..... Thoroughfare

Set-Up

- Place the cards in a stack near the playing area. The cards are printed with different colors on each side. Play through one color first, and then switch to the other color to avoid repeats.
- You'll need a paper and pencil for keeping score.

Play

- Players take turns being the reader. If you're the reader, take a card and read aloud the letter combination in the top right corner. Then, read the clues in order from 1 to 5.

- All other players try to be first to shout out the correct answer to each clue.
- If the players are stumped, you—as the reader—may opt to pass and move on to the next clue.
- As the reader, you also have the final say on who yelled the correct answer first.
- The player to the left of the first reader takes a new card and becomes the reader for the next round.

Scoring

- After all 5 clues have been read and answered (or passed), record the scores on a piece of paper.
- Players score 1 point for each correct answer.

- If the reader decides that 2 players said the correct answer at exactly the same time, both players get 1 point. If more than 2 players tie, no points are scored.

Winning

The game ends when one player scores 30 points and everyone has had an equal number of turns being the reader. The player with the highest score wins!
