100 Really Dumb Things

Ages 7 and up | \$15 | Patch

The LOL Game When you play this silly game, your main goal is to act out the antics depicted on the cards — no matter how hard you're laughing. (The cards have point values, but trust us, winning isn't the point.) On each turn, players add a card to their hand and perform the actions shown.

One tester mom, for example, had to begin each turn by squealing like a pig, leapfrogging over another player, then spinning around six times. Some actions, such as making an animal sound, require another player to perform at the same time — unless he's laughing too hard. Crazy? Yes, but oh so fun. *Three or more players.*

Silly props, such as these glasses, are part of this game's fun
