Let your imagination run wild with Patch's new building toy!

BELOIT, Wis.—Kids will love to build and experiment with Patch Products new beginning construction toy, *Lauri® Locktagons™!*

This construction toy is the perfect size for little hands to grasp and manipulate. *Locktagons* allow children to explore their imagination with freeform creations and unlimited possibilities! The 3 different shapes (rectangle, square and octagon) have several slots that lock together to build 3-dimensional structures in multiple ways that are simple, challenging and most important, fun.

The magic of these toys is unlocked with a child's imagination—is it a doll house, car garage, dinosaur or space shuttle? Children will be amazed by the durable pieces that will let them create anything their heart desires. An activity guide is also included that will give parents suggestions on educational ways to build and interact with their child.

Locktagons is an excellent introduction into building and is a great way to develop imagination, stimulate logic, develop spatial reasoning skills and encourage creativity. A *Locktagons* set comes with 216 pieces in 6 bright colors and comes in a storage box with a handle for easy portability. For ages 3 and up.

For more information on Patch Products and *Lauri Locktagons* visit patchproducts.com or call 1-800-524-4263.
