Patch Introduces *Word Shout* for the iPhone!

BELOIT, Wis.— Word game fans, rejoice! Now you can bring the fun and excitement of Patch Products' popular, lightning-fast dice game, *Word Shout*®, to an iPhone, iPad and iPod touch near you.

Created by Paze Interactive, Patch's action-packed *Word Shout* app is the most exciting word game around! A game for all ages, the *Word Shout* app uses lively sound effects, music, high score features, unique customization, achievements to unlock and state of the art graphics for a truly exhilarating user experience.

In this addictive game, you never know what words could be created after the 10 lettered dice are presented to you randomly. First, find a word. Then, swipe up to play your word. You have 30 seconds (or 60 seconds based on your choosing) to spell as many legitimate words as possible, so be smart on your selections—the longer the word, the higher the score.

Play solo or play one-on-one with your friends on Game Center or with the Pass-N-Play feature! Want a bigger challenge? Try changing your difficulty level, game length and round length so you have to find bigger words in a shorter period of time.

This easy-to-pick-up, yet-incredibly-difficult-to-put-down game will push you to your vocabulary limits. Learn how to play the game in seconds, but have addictive fun for hours all for just \$0.99.
